

May 27, 2005 - San Francisco, California. AEI Press Release 2005/03.

**AMROHA Engineering Inc.** & Exipromo International Announce Award of a System Integration Contract for an advanced surveillance system at a major international airport.

Amroha Engineering Inc., an original equipment manufacturer (OEM), a system integrator and a distributor of security products, and Exipromo International today announced the award of a contract from an undisclosed (for confidentiality / security reasons) government entity, for the integration and installation of AEI's Intrusion Detection & Alarm System IDAS100™. For reasons of security and confidentiality, no other details were provided.

The system consists of eight independent fiber optic networks, each 11 km long, fiber optic industrial networking switches, PTZ IP night-vision cameras, active infrared illumination around the airport perimeter, motion detection and remote monitoring. The system permits remote targeting of intruders in a manner appropriate to the circumstance. Live video and audio feeds will be available across secure internal network 1,320 km away.

About Amroha Engineering Inc.

AEI, incorporated in 1993, is a systems engineering and integration firm, engaged as an ODM/OEM manufacturer of industrial computers and servers, and as a system integrator providing enterprise-level solutions and products for the entertainment, financial, medical, and security verticals.
